

**Postdoctoral Fellowship in Medical Education Research
Centre for Medical Education
Faculty of Medicine, McGill University**

The Centre for Medical Education at McGill University invites applications for a Postdoctoral Fellowship in Medical Education Research. This competition is open to permanent residents of Canada, Canadian citizens, or international scholars. This is a one-year funded position, with the possibility of renewal, to begin no later than January 1, 2018.

About the Centre for Medical Education

The Centre for Medical Education at McGill University promotes excellence and scholarship across the continuum of health sciences education. Its 16 Core Faculty, 3 Research Scientists and 41 Centre Members aim to: advance the field of health sciences education through scholarship; stimulate interest in educational research and development; serve as a resource for curriculum development and innovation; and ensure that research informs educational practice.

Postdoctoral Fellowship

The Postdoctoral Fellow, who will work as part of an interprofessional team, will have an opportunity to participate in ongoing research at the Centre for Medical Education, shape his or her own research interests, and develop new areas of inquiry. The goal of this fellowship is to foster interest and expertise in medical education research.

Duration: A one year full-time appointment, with the possibility of renewal

Start date: January 1, 2018

Stipend: \$42,000 (plus benefits) as well as a travel stipend to a national or international meeting in medical education.

Educational Opportunities:

The Postdoctoral Fellow will work on site at the Centre for Medical Education with Core Faculty and Centre Members. The Fellow will have an opportunity to work as part of a research team in the areas of Faculty Development, Professional Identity Formation, Teaching and Learning in the Clinical Environment, and Educational Leadership. He or she will also be able to pursue their own research interests, consult on students' and residents' research projects, and participate in educational events at the Centre. Dissemination of research findings will be strongly encouraged.

Educational Background and Experience:

Suitable candidates must hold a PhD in a social science or humanities discipline (e.g., medical anthropology, psychology, education) with demonstrated experience in qualitative research methodologies, an excellent knowledge of the theories and approaches that underlie these methods, and an ability to translate ideas into research questions. Previous success with grant applications, publications and scientific presentations is strongly recommended, as is the ability to work collaboratively in an interdisciplinary team environment.
